
Dave Ramsey's Junior's Adventures

LETTER TO FPU PARENTS

Congratulations! As a new *Financial Peace University* (FPU) member, you're taking a bold step toward changing your family tree forever—and we're here to help get your kids in on the fun through the *Junior's Adventures Bible Study*.

You see, when families decide to follow FPU principles, life begins to change . . . a lot. For maybe the first time, you'll really stick to a monthly budget and cut expenses. These actions result in huge victories!

Unfortunately for kids, the value of this change is often lost on them. All they hear is "No." "No, it's not in the budget." "No, we can't take a vacation this year." *No* is a tough word for anyone—especially kids—to swallow.

That's where *Junior's Adventures* comes in. While you're watching Dave on DVD, your kids won't simply be cared for by a sitter. They'll be hanging out with their new friend, Junior.

Through fun stories and engaging activities, your kids will learn about the FPU principles on a level that is applicable to them. We teach lessons on ownership, work, giving, saving, spending, and being content. The outcome is kids who are more understanding and supportive of the necessary changes to come. Imagine talking about money at the dinner table and using an envelope system right alongside your kids!

This class partners with FPU to help your whole family learn how to be good stewards of money. If you have teens in youth group, they may also be learning these concepts through our class, *Generation Change*. This is the perfect combination, really. Because when all of you understand how to handle money God's ways, you can change your family tree from the ground up!
