

A LETTER TO PARENTS

For today's lesson, your child learned that God owns it all and that God wants us to take good care of everything He gives us: our stuff, our talents, and even our relationships. Sometime this week, take your child outside. You can walk out your front door or go to a nearby park. This exercise will allow your child to engage their senses to reinforce the lesson. Ask your child to:

- **Look** around and share what they see that reminds them of God's creation.
- **Listen** for things that remind them of God's creation.
- **Sniff** and smell for things that remind them of God's creation.
- **Feel** around for things that remind them of God's creation.

Remind your child that because God created everything, He owns it all! He loves us and wants to share with us by giving us all kinds of gifts. He wants us to take care of what He's given us so He can trust us with even more gifts!

AT-HOME ACTIVITY: DISCOVER GOD'S CREATION

I saw _____

I heard _____

I smelled _____

I felt _____
